EW2015 LED Pedestrian Boundary Light

ECCO's EW2015 LED Pedestrian Boundary Spotlights are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment. These lights are intended as a supplemental safety device in addition to a 360° warning light and project a bright red line onto the ground to the side of the vehicle. This additional safety feature is especially useful to warn pedestrians that are not looking up or paying close attention to their surroundings. Featuring 12-80 VDC operation, die-cast alloy housing, and a virtually unbreakable polycarbonate lens, the EW2015 is extremely resistant to impact and vibration damage.

Models

PART NO.	ILLUMINATION	VOLTAGE	AMPS	SIZE
EW2015R	Red	12-80	0.6	66mm x 76mm x 67mm

Features and Benefits

- Three 3-watt LEDs
- Red boundary line projection
- Pedestrian warning for material handling applications
- Die-cast alloy heatsink housing
- Polycarbonate lens
- R10
- Warranty: 3 years
